### Russia and China Each Declares No Hostile Intention

Clashes Between Troops On Border Continue To Occur Is Report.

#### NATIONS INTERESTED

Britain, France and U. S. Seek To Avert Open Warfare.

WASHINGTON, July 20.—(AP)—French Ambassador Claudel delivered to the State Department today a message from Foreign Minister Briand, transmitted to Secretary Stimson, concerning the China-Soviet difficulties in Manchuria.

UNDATED, Sino, Russia.—(AP)—The great powers today are working to avert war between China and Russia over the Manchurian border, the Kellogg-Briand peace pact being one of the chief media through which they hope to avoid hostilities.

Great Britain this morning joined France and the United States in seeking to bring about relaxation of the tense feeling through "friendly advice."

China and Russia have announced that they are fully conscious of the obligations imposed upon them by the Kellogg-Briand peace pact and intend to observe it, but an invasion will mean military resentment and war. Each clearly disavowed any intention of invading the other, but regards border clashes as being of supreme danger.

The French consul at Peking at Shanghai said that Harbin dispatches told of Russian troops crossing the Manchurian border at the eastern end of the Chinese Eastern railway. Russian dispatches told of workmen in hundreds pointing the Red army "To defend the Union against China."

Nanking reported that the Chinese ambassador in Finland would proceed to Moscow in order to discuss the situation with the Soviet government.

### 'St. Louis Robin' Still Going Strong

In Air Just One Week But Believed Will Set Record.

ST. LOUIS, July 20.—(AP)—Dale (Red) Jackson and Forrest O'Brien piloting the endurance record-seeking plane, the "St. Louis Robin," completed their week in the air at 7:17 this morning.

At the time they passed the 168-hour mark the plane was again refueled and roared on to a new endurance record mark. They have still three days to go but the plane is in good shape, the motor functioning perfectly and the fliers themselves indicated they were in excellent condition.

A sister endurance plane, the "Missouri Robin" passed its 70th hour this morning and was also refueled. It was piloted by Joe Hammer and Gentry Shelton.

### Dry Raid Killers Are Denied Bond

Habeas Corpus To Release From Custody Is Denied.

TECUMSEH, Okla., July 20.—State District Judge Hal Johnson late Friday denied bail to W. W. Thompson, federal dry agent, and Jeff Harris, his unofficial assistant, charged with the murder of two farmers during a July 4 prohibition raid near here.

Thompson and Harris failed to testify during the habeas corpus hearing and were ruled by the judge to be in bad faith. Special Deputy Sheriff Sam Nicholson and E. F. Holland testified that Thompson was not present at the shooting which took the lives of James Harris and Oscar Lowery, farmers. James Harris told them before his death, they said, that Jeff Harris shot him.

### Boss Cotton Stalk On Display Today

Rocky Mound Grower Says Heavily Fruited This Year.

Jeff Wright, of the Rocky Mound community, brought to town today a stalk of cotton of the Moline variety which shades anything shown here yet.

The stalk is about three feet in height and has forty six forms, twenty-two of which are fully developed bolls, with both top and bottom crops forming. No sign of weevil or other infestation is to be found.

The cotton was planted April 15 on sandy soil, using three hundred pounds of fertilizer to the acre. Mr. Wright says he will have his first bale on the market about August 15.

When Trouble Looms, Page the 'Stunt' Flier

The "Stunt" aviator, so often unjustly criticized, is the one most likely to avert disaster when the air attempts to bump his ship out of its lap, according to Jimmy Collins, in his current issue of Liberty Magazine.

Richard Carroll, who has written this article concerning one of America's most daring pilots, quotes Collins thus:

"It took many years and many lives to find out all the things an airplane can do in the air. Once it was thought that a student had to become an expert pilot before he could stunt with safety. Now we know that he must attempt stunting before he can pilot with safety. Stunting develops confidence in the air and does away with that tense feeling that hampers beginners."

"More than twenty-five per cent of all serious crashes are the result of tail spins. And the pilot in the crashes are seldom veterans. The reason is simple. The veteran knows instinctively what to do when a ship goes into a tail spin. They do not have to stop and consider if they should push this or that or the other thing. Their motion is mechanical. And the reason is that they were trained by some instructor who took them and put them through spins and took them out until they followed his movements automatically."

"A knowledge of tail spins and stalls, both of them called stalls, is essential because when a beginner gets into serious trouble in the air he almost invariably ends up first in a stall, then in a tail spin first in a stall and then, if he hasn't been taught how to get out, in a casket with a lily in his hand."

Special Tax Receipts Mailed To Collectors

LITTLE ROCK, July 20.—State Auditor J. Oscar Humphrey mailed a supply of emergency poll tax receipts to all county collectors Friday. The special receipt will be issued to persons who failed to appear and pay a poll tax this year to enable them to comply with Act No. 288 of 1929, which requires adult citizens to pay poll tax before they can receive remuneration from public funds or obtain various kinds of licenses and permits issued by the state and its political subdivisions.

### Singing At DeAnn Is Feature Event

County Convention Holds Annual Sing Today and Sunday.

The county singing convention is to hold its annual session at De Ann today and tomorrow and invitations have been extended to the public generally to attend.

Dinner on the ground today and tomorrow, with all-day singing promise to attract one of the largest gatherings that little city has known in some time.

### Visitors Inspect Experiment Farm

Agronomists and Fertilizer Men Tour State Stations.

The Fruit and Truck Branch Experiment Station here was visited Friday by a group of sixteen southwestern agronomists, completing a two-day tour of experiment station in Arkansas.

The party was composed of agronomists and fertilizer men from Arkansas, Oklahoma, Louisiana and Texas. Vice-dean Martin Nelson and horticulturist V. M. Watt, of Fayetteville, and Guy A. Stockdale, of the station staff, conducted the group through the farm and the various experiments were pointed out.

### Seek Relatives of Robbers Victims

Pair In Hospital After Hurt and Robbed By Thieves.

MEMPHIS, July 20.—(AP)—Officers of this city and Osceola, Ark., today are seeking relatives of Mr. and Mrs. C. E. Allen, former residents of both cities, now at a hospital in Cleburne, Texas, seriously injured.

Authorities at Cleburne advised local authorities that the Allens had been in the hospital since Monday when a robber drove his car into the Allen auto as they were driving near Cleburne. After the week the thieves took valuables, and more than \$400 in cash from the victims who were pinned under their car for more than four hours before being rescued.

Shower Will Hold Musical Tuesday

A musicale and ice cream supper will be held Tuesday night at Shower Springs schoolhouse, for the benefit of the 4-11 club of that community. It was announced Tuesday. The program will start at 8 o'clock, and will be featured by members from John Ridgill's band.

Miss Elizabeth Arnett Out of Maids Contest

Another of the contestants in the Festival Maids race announces her withdrawal, this time Miss Elizabeth Arnett, of this city, declining to further participate. Miss Arnett expresses appreciation for the efforts and interest of her friends in her behalf but does not care to go through with the contest and so withdraws.

### Landis Wears A Legion D. S. Medal

Is One of Three Americans Accorded Right To Wear Medal.

CHICAGO, July 20.—(AP)—The Distinguished Service medal of the American Legion, highest award of the organization, was today presented to Judge Keneaw Mountain Landis, high commissioner of baseball by Paul V. McNutt, National Commander of the Legion.

Judge Landis is the third American to receive the award, the others being General Pershing and Admiral Clegg. No foreigners have received it.

### Plans Flight Across Pacific

Lieutenant Harold Bromley, soon to undertake a 4700-mile nonstop flight across the Pacific ocean from Tacoma, Wash., to Tokyo, Japan, is shown above with the map of his proposed route. He plans to fly alone and follow the Aleutian Islands chain, never getting more than 600 miles from land. He hopes to make the trip in 35 hours. He is shown here with a bubble sextant with which he can ascertain his position in a few seconds.

### Contest Interest Steadily Mounts

With But Week Yet To Go Aspirants For Honors Busy.

With but a week yet to go in the contest for selection of Maids for the festival, interest is steadily growing, with indications all pointing to next week being an entirely hectic one.

### No Insanity Plea Planned for Snook

Attorneys Change Mind and Case To Be Called Wednesday.

COLUMBUS, O., July 20.—(AP)—Attorneys for Dr. John H. Snook, confessed slayer of his co-ed paramour, Cleora K. Hix, 25, announced today that had withdrawn their insanity plea in the case.

Following the announcement, Common Pleas Judge Harry Searlet said the first degree murder charge against Snook would begin Wednesday. The insanity hearing had been scheduled for Monday.

Ex-Quaker Is Sent To Vatican By Free State

DUBLIN, July 20.—(AP)—The Free State has sent its envoy to the Vatican, Charles Bewley, K. C., member of a well-known Quaker family. He was received into the Roman Catholic Church while a student at Cambridge.

Mr. Bewley is a member in the Irish bar. In the struggle which preceded the treaty of settlement, he was a sympathizer with the Sinn Féin movement and defended prisoners charged before British courts martial.

The sending of an envoy to the papal court was opposed in the Dail by Eamon de Valera, who said that such an official did not truly represent Ireland but only 26 counties of it.

American Ambassador To China Stays On the Job

PEIPING, China, July 20.—(AP)—American Ambassador McMeure today received instructions from his home government to postpone his contemplated trip home to the United States. He will remain at his post while the Manchurian situation continues tense.

### Michigan State Police Capture Rum Air Vessel

Watching For Some Time But This Is First Capture.

#### PILOT PLEADS GUILTY

Takes Punishment But Will Not Name Where Rum Comes From.

DETROIT, July 20.—(AP)—An American rum-running airplane was captured this morning by Michigan state police as it landed in New Boston, a suburb. Nineteen cases of liquor were seized.

The pilot, Howard Golyad, 32, of Detroit entered a plea of guilty to possession and transporting but refused to say where he had taken on his cargo.

Six men in two automobiles at the field, apparently awaiting the coming of the plane were arrested, but were released later.

The state police said they had had knowledge for months that two planes were delivering liquor at the field, but they had not before been able to be at the field at the proper time.

### Hyde May Visit Florida Growers

Wants First Hand Information About Fruit Fly Damage.

WASHINGTON, July 20.—(AP)—Serious consideration was being given by Secretary Hyde today to a visit to Florida to secure first hand information as to the Mediterranean fruit fly situation.

At the secretary's office it was learned that Hyde hoped to be in Baton Rouge, La., where late in the month he will attend a session of the federal farm board, of which he is ex-official chairman.

It was made clear, however, that the secretary had not definitely decided upon such a trip.

### A \$7,000,000 Trench Is Man's Sized Job to Make

ST. LOUIS, July 20.—A giant machine has started digging a \$7,000,000 trench between St. Louis and Kansas City. It will house the long distance cable of the Southwestern Bell Telephone Company and will form one link in a vast chain of underground channels which will bring the voices of five states to this city.

### New Dentist Will Open Office Here

Offices have been taken in the First National Bank building by a new dentist, Dr. A. J. Neighbors, who will open for practice here August 1. It was learned Saturday.

Dr. Neighbors is a native of Philadelphia, but comes to Hope from St. Louis, where he has been for the last year. He is married, and Mrs. Neighbors will accompany him to their new home here.

His office is on the fourth floor of the First National, in the suite formerly occupied by Dr. W. S. Kennedy.

### Hohenzollerns Deem Rupprecht Still King

NUREMBERG, July 20.—(AP)—To the Hohenzollern family, Rupprecht of Wittelsbach is not the Bavarian ex-crown prince, but King Rupprecht. Prince August Wilhelm of Prussia, fourth son of the former emperor, was delegated by the Hohenzollern clan to express birthday greetings on the occasion of Rupprecht's sixtieth anniversary to a mass meeting here of nationalist societies. Every time he spoke of Rupprecht he referred to him as a King and he closed with these words:

"I am proud to stand here as the mouthpiece of Bavarians and to ask you all to join me in the slogan, 'God Bless your King, His Majesty, King Rupprecht! Hurrah!'"

Captain Ross G. Hoyt was making a week-end hop from New York to Alaska, planning to spend tonight at White Horse, in the Yukon country. But fuel shortage forced him down in Canada yesterday, his journey only about half completed.

### Army Flier To Finish New York-Alaska Flight

VANDERHOFF, B. C., July 20.—(AP)—Captain Ross Hoyt, flying the United States army plane, New Alaska, took off here at four o'clock this morning for Nome, Alaska. He was forced down here yesterday by adverse weather conditions and fuel shortage. His ship was refueled before leaving.

### Miss Mabel Breeding Out of Maids Contest

Miss Mabel Breeding, one of the attractive entrants in the Maids contest, from Garland township, announces today her withdrawal from the race.

"Naturally," the demure little miss told Star, "I am more than grateful to those who accorded me their support and those who would have supported me, and perhaps some other time I will make the race. But not this year. Thanks awfully, all you, for your kindness."

### Motor Salesman Falls From Boat To Death

ROME, Ga., July 20.—(AP)—Guy H. Whitten, 41, Southeastern sales manager of the White Motor Co., fell backward from a canoe in the Oostanula river last night and was drowned.

He, with a number of companions, was fishing from a houseboat when the accident occurred. Search for the body was continued through the night but it had not been recovered at an early hour this morning.

### Hoover Home Guarded By Detectives Now

PAOLO ALTO, Calif., July 20.—Detectives have been assigned to the picturesque San Juan Hill home, of President Hoover, to guard against souvenir hunters among the thousands of tourists and sightseers who have made it a summer mecca.

### Car Overtakes On Cliff And Woman Fatally Hurt

ROCKWOOD, Tenn., July 20.—(AP)—Mrs. Fred Fisher, 31, was killed when a truck driven by her husband, ran off a cliff on the side of a mountain today two miles from here.

The couple were returning home from a visit with Fisher's parents.

### Mexicans Ambush U. S. Border Patrol

EL PASO, Texas, July 20.—(AP)—Ivan E. Sonten, 35, a border patrol inspector, was shot and killed early today when his patrol party was ambushed by a larger party, thought to be Mexican run-runners.

The shooting occurred on El Estero Island, in the Rio Grande, lately largely used by rum-running groups.

No challenge was issued the patrol party. As they approached the spot, fire was opened from cover. The fire was returned and the ambushers retreated, presumably to the south side of the river.

### Slain Officer's Widow Seeking Recover Damages

L. K. Person, Slayer of Officer, Defendant In Court Action.

#### SLAIN MAN OFFICER

Suit Results From Killing Over Tick Eradication Work.

TEXARKANA, July 20.—Relief for herself and minor children in the sum of \$25,000, actual damages in the sum of \$10,000 and punitive damages in the sum of \$15,000 a total of \$50,000, is asked in a suit filed in the Miller county circuit court Friday with Mrs. Mittie Simmons, administratrix of the estate of L. K. Person, deceased, against L. K. Person, of Garland City.

The suit is an outgrowth of the killing of L. H. Simmons, who was employed in the tick service in Arkansas, near Garland City, on June 27, by L. K. Person, prominent plantation owner of that section of Miller county.

Petition filed by the plaintiff recites that is a result of the shooting, the plaintiff's husband died a few hours later. Surviving relatives named include Viola Cooper, Cleora Dulaney, Clara Metcalf, and Irene Clark, as adults, and as minor survivors, Floyd, 20, Woodrow, 15, Hardy, 12, and Lillian Rose, 18 months. The plaintiff sets out that she has been deprived of the support of her husband whose income of from \$175 to \$200 was contributed to his family.

### Snakes Hold Up Work On High-Tension Line

NEWBURGH, N. Y., July 20.—Hundreds of poisonous snakes have impeded work of patrolmen on the high-tension power line along the Delaware river near Port Jervis. One patrolman, J. E. Marsh, said he has killed 60 reptiles in a few days. Other patrolmen are carrying clubs to combat the many copperheads, rattlers and other dangerous snakes which are rampant in the region. Excessive rains and hot weather is believed to have brought the serpents out in unusually great numbers.

### Plane Shakes Off Dishes Complaint of Housewife

SYRACUSE, N. Y., July 20.—That low-flying airplanes keep her awake and "shake dishes off the shelves" in the wee hours of the morning was the complaint made to the police here recently by one housewife.

"It flies so low it wakes us all up and the vibration from the engine shakes dishes off my shelves," said the woman, adding that she wanted "something done about it." The sergeant promised to do his best, though as yet there are no "air cops" on the force.

### Henderson-Brown Trustees Meeting

President of Institution Has Job On Hand To Cut Expenses.

LITTLE ROCK, July 20.—(AP)—The board of trustees of Henderson State Teachers College, will meet in the office of J. T. Womack, state superintendent of instruction and ex-officio chairman of the board to elect a president of the state's newest educational institution.

The board is expected to also take up the question of a budget for the school. The legislature of 1929, in accepting the properties of Henderson-Brown as a donation by citizens of the city of Arkadelphia appropriated \$60,000 for maintenance of the school during the year beginning September 1.

Estimates prepared in the department of education covering proposed expenditures in the year show \$84,000, based on the amount expended by Henderson Brown during the last scholastic year.

Womack said one of the important problems confronting the new president would be the cutting of expenses to stay within the appropriation.

## The Star's Platform

### City

Apply the revenues of the municipal power plant to develop the industrial and social resources of Hope.  
More city pavement in 1929, and improved sanitary conditions in the alleys and business back-yards.  
Support the Chamber of Commerce.

### County

A county highway program providing for the construction of a minimum amount of all-weather road each year, to gradually reduce the dirt road mileage.  
Political and economic support for every scientific agricultural program which offers practical benefits to Hempstead county's greatest industry.  
Encourage farmer organizations, believing that co-operative effort is as practical in the country as it is in town.

### State

Continued progress on the state highway program.  
Fearless tax reform, and a more efficient government through the budget system of expenditures.  
Free Arkansas from the cattle tick.

## Our "Broke" Cities

IN his speech on municipal utilities, before the Kiwanis club last Thursday, Senator Gentry made a declaration that was almost identical with the view taken by The Star last spring, Senator Gentry said:

"I think it is a well established fact that there is hardly a city in Arkansas not heavily involved but what has some supplementary source of revenue such as our municipal power plant. The reason most cities are in the red is because they have to buy the very things that our municipal plant furnishes free." In this he referred to the 5-mill city tax, which last year yielded \$17,000, as against \$18,000 worth of free light and water service furnished by the municipal plant. Under private ownership, he observed, revenues would have failed by \$1,000 to meet this one expenditure.

The obvious fact is, that property taxes under a private utility are higher—and higher taxes mean higher rents. But even at that, Arkansas cities are unable to make ends meet.

In El Dorado, where we were personally acquainted with the affairs of three city administrations, municipal revenues failed to cover municipal expenditures at any time since the discovery of oil. El Dorado has no municipal power plant.

The poverty of Arkansas city governments was so notorious all along that in 1924 the bankers of the state forced the adoption of amendment No. 11, placing the cities on a cash basis. In order to accomplish that, El Dorado had to balance her budget with a \$60,000 bond issue.

Only four years later—last fall—El Dorado was again in the hole, paying off her policemen and firemen November 1 with city script dated January 1. Sixty days short on a municipal pay roll is a serious matter—but El Dorado, a rich city, is only a mild example of what has been, and still is, true of most Arkansas cities.

As an editor we opposed the adoption of amendment No. 11 in 1924 because it was an attempt to cure by law an economic evil. The attempt failed, just as all similar attempts fail. Arkansas cities bonded themselves for current indebtedness, and now most of them are in debt again and owe the bonds besides.

The moral is that any city which has a revenue-producing property of any description ought to hang on to it. The man with money in his pockets is independent. The city with a profit-producing industry has an edge on the biggest metropolis in the world. If bids are to be made—for industry or whatnot—that city can outbid the others if it wants to. Conway beat Little Rock, retained all its original colleges and some more; and Hope will take anybody that wants to run against her.

## Oysters In Merger

EVEN the lowly oyster has not escaped the present trend toward industrial mergers which has been going forward at a rapid rate during the past few months. It was recently announced that a large number of extensive oyster farms at Long Island, Connecticut and Rhode Island points have been acquired by Postum Company, Inc., which has consummated mergers whereby more than 20 nationally advertised food products will be manufactured and distributed.

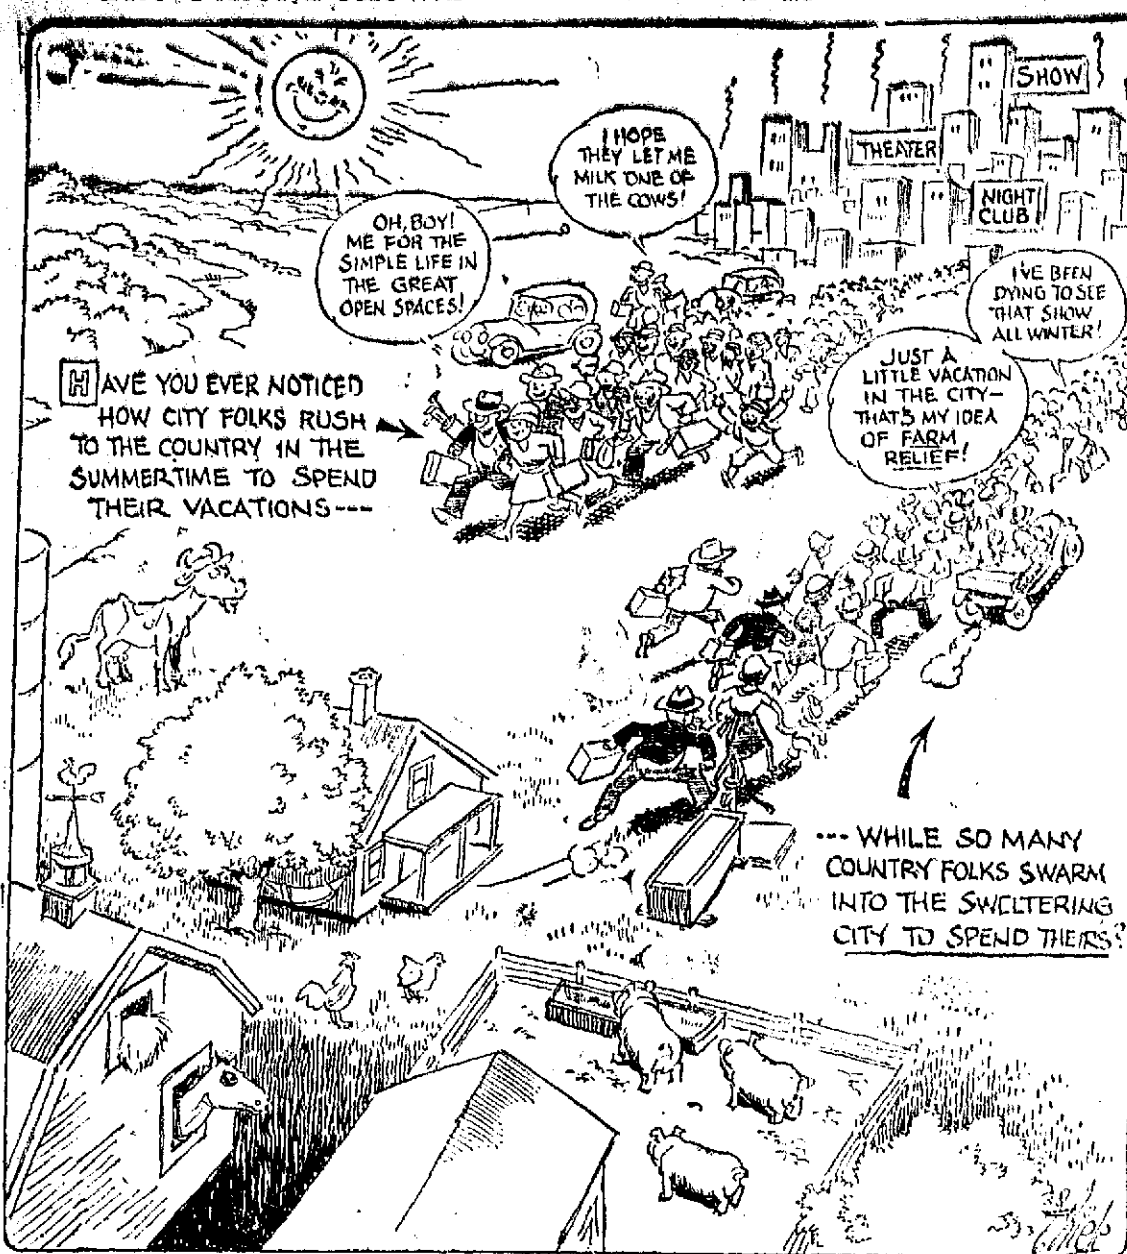

These mergers, it is understood, do not attempt to control any particular commodity, but bring many food products of different kinds into one large organization, each having free competition in its own field.

This is a very different proposition from the "trusts" of old, which it was alleged sought to create a monopoly in a certain line of goods. The old system was in the direction of restraint of competition, while the present trend is to form consolidations with a view to economy of operation, which in the end should benefit the consumer.

## Tell 'Em Howdy

WE have just heard of a story of a neighboring town, in which friend husband was said to be stepping out a little. A sympathetic neighbor woman, accompanied by her husband and the wronged wife, trailed hubby to his rendezvous, thus convincing the wife of the rumors she had heard. Had at disclosure resulted in a killing, the sympathetic neighbors would have been accessories before the fact to murder. The only thing you are justified in telling your neighbor "Howdy."—Mineral Springs Vim.

## BARBS

It's an entirely different matter when the roll is called in Wall Street.

A society for dress reform urges that men dress as sensibly as women. We'll give the society credit if it can get one man to come to the office in gym shirt and running pants.

A conservative is a radical who was elected on the platform of curing the world's wrongs and who finds out after he is elected that it will take lots of time.

Teachers are working to kill the rule prohibiting married women teaching. Nobody wants a girl these days who can't support herself, it seems.

The Swiss are the richest people, per capita, in the world. But then they have very few night clubs, and those for the tourists.

What's wrong with this sentence: "I would buy this myself if I had your capital."

## DEERY AND VIDOR IN TALKING TONG WAR STORY

More plot elements and a swifter development of action will be the result of talking pictures, according to William Wellman, noted Paramount director, who has just completed the production of "Chinatown Nights," from the original story, "Tong War," by Samuel Orntz and all-talking show at the Saenger theatre Monday and Tuesday.

"Explanatory lines, spoken by the players, will eliminate the need

for establishing scenes which, in the silent pictures merely serve to trace character or to fix locale," says Wellman. It follows that foot age will be saved for story and plot elements.

Wellman proves his theory in "Chinatown Nights." The young director, who handled the Paramount star production of last year, Wings first made the silent version of "Chinatown Nights" and then re-filmed the entire action with dialogue. In the second making it was found possible to inject more action and additional dramatic scenes.

CULLING WEEK WILL BE JULY  
29 TO AUGUST 2.

Culling week will be observed in  
Hempstead County the week of  
July 29th. to August 2nd. It is  
very important for every poultry  
raiser to cull out the non-producing  
hen and use the feed they consume  
to raise their young stock that will  
soon start in production.

The cull is easily recognized at  
this time of the year as she is  
starting in her molt. It has been  
at the leading experiment poultry  
farms that the early moult is the  
poor producer of the flock. She  
starts losing her feathers in July  
or August and quits laying in order  
to help her body put on new feath-  
ers. It takes her from four to  
six months to put these new feath-  
ers back and begin laying so that  
you have lost her production dur-  
ing the months when eggs are  
bringing a good price.

The good producing hen molts  
late during the months of October  
and November and the length of  
her molt is much shorter usually  
two months. Some high producing  
hens molt and lay at the same time  
but is it unusual. At the time  
when your good producing hens are  
molting your pullets have started  
production so that your returns  
from eggs are not cut off.

Demonstrations of culling will be  
held at the demonstration flocks

and in other communities where  
there is need for the work. The  
schedule for Culling Week will be  
announced later. If any poultry  
raiser wants his flock culled get in  
touch with the Home Demonstra-  
tion Agent before culling week.

Agent.

**THIS HAS HAPPENED**

A tragedy has befallen Molly Burnham and Jack Wells, who have each other devotedly and charitably beyond all reason. Jack has bought his sweetheart an engagement ring, and because Molly seems hesitant about wearing it to work the next morning, he imagines that she is ashamed of the size of the tiny diamond.

Humiliated and heart-broken, he drops the little shining stone into the lake, where they are rowing.

Next morning Jack is going to New York, to work in the home office of a large architectural firm. And Molly is to report for the first time to a newspaper office, where the city editor has promised her a tryout.

Molly has recently inherited \$10,000, of which Jack refuses to borrow a penny. They will be married as soon as he has enough money of his own. Molly goes with him to his room, to help him pack, and then goes to the

We wish to announce that a private business school will open in Hope July 29th.

In this school will be taught bookkeeping, touch typewriting and speed writing, the modern shorthand of the age. Nothing to use but the simple A B C's. It can be learned and put to money making use in four weeks. If that is too startling to believe visit our school at 212 North McRae and see with your natural eye how it can be done.

If you are interested in a stenographic or bookkeeping course we insist that you join us at the opening or soon thereafter as we are anxious to put every student over the top before schools open in September. J. E. Wootton.

"Now You're talking," he approved. "Well, trot out your chicken. And put some coffee on like a good girl."

Molly began to plot her tale. The girl's name should be Magdalene, and she should die for love. A gorgeous, sinning siren, kneeling before the high white altar of a pure passion—Suddenly, maddeningly—the doorbell rang.

"Yes?" Molly addressed herself coldly through the mouthpiece. Whoever it was, he could not come up.

"Molly? Hey, Molly, it's Red Flynn."

"Yes—well, you can't come in, Red," she told him. "I'm all ready for bed."

Red was unimpressed. "Now listen, dear," he countered. "I'm not going to have a long distance argument, you know. I've something to tell you. And I'll wait just five minutes. If you don't let me in then, I'll go open my heart to Gracie Burns."

Gracie Burns was sob sister on a rival sheet, and not a particularly good friend of Molly's.

"What is about?" she parried.

"I'm dreadfully tired, Red."

"It's about Bernice Bradford," he informed her. "And Gracie'll get a big kick out of it."

Molly gasped. And, gasping, pressed the button.

She met him in the hall, apologizing. "Please forgive me, Red. I wasn't really ready for bed, you see. I was only teasing my hair, trying to think of a plot. I felt sort of inspired, and exactly as though I was about to give birth to a perfectly wonderful idea."

He grinned engagingly. "You're a very rude girl," he told her. "And, besides, you tell lies. I should punish you by using your telephone to make a date with Gracie. I should tell Gracie all I know, and collaborate with her on a crime play based on my newly acquired information about the late lamented Miss Bradford."

"Red!" she threatened. "Don't you dare. Here—sit down. Have a cigaret? Have a piece of pie? I've some cold chicken in the ice box."

"Now you're talking," he approved. "Well, trot out your chicken, dear. And put some coffee on like a good girl."

"And you'll tell me everything?" she bargained.

"Everything," he promised.

Molly plugged in the percolator, and cut bread for the electric toaster. The little roast chicken looked tempting, and the big apple pie. Red lit a cigaret, and while they waited for the coffee to boil, began his story.

"There's a boy," he said, "whose name is Perry Ingersoll, a junior at the University. Perry got very drunk tonight, and talked his head off. I've parked him now in my own little bed, with Slim Boynton, to see that he doesn't wander off. Because, just between you and me, Molly, I don't know what we'd better do with the kid."

"Did he know Bernice Bradford?" she interrupted eagerly.

"I've seen the marriage license." "But why didn't someone find out before? A marriage license! Why, it must have been taken out in her name."

"It was," he interrupted dryly. "Only her name wasn't Bradford. Our fair Bernice had been married before. Her husband, since dead, was a man named Bones. Nice, romantic name—Bones. And Bernice's first name was M a r y. Everyone always called her Bernice. It was her middle name. Naturally the clerks at the register's office never connected Mary Bones, widow, with the deceased Bernice Bradford."

"My heavens! Did the Ingersoll boy know about Barrows?" Red nodded. Yeap. But he was in love with her just the same. Can you beat that, Molly? Here's a guy—a handsome kid, too—proud old family, and all that sort of thing—and he goes off his nut about a woman old enough to be his mother."

"Bernice was 34," Molly reminded him.

"Well, anyhow," pursued Red "this kid fell head over heels in love with her. Used to write poetry, and all that mush."

"How do you know?"

"Ain't I telling you? He told me," Red looked hurt. "Here I am, spilling a story that hasn't a beat this side of the Rue Morgue, and you throw questions at me like a blooming prosecutor."

"Go on," she besought. "I won't say another word. Where did you meet this Great Lover?"

"Up on Beacon Hill. In one of those so-called Bohemian dives. The kid was crying like a fool. He looked like a decent sort, and he was alone. Slim and I were sitting opposite him, and you know Slim's big heart."

"I know yours," interrupted Molly.

"No, it was Slim's," he insisted. "Slim says, 'There's a poor son of a gun, making a fool of himself over some woman, most likely. What do you say, Red, if we take him for a walk?'"

"Well, the proprietor was all set to kick him out, so it looked like a good idea. Just a couple nice boys—me and Slim. We got him between us, and we walked down the Hill. And pretty soon he stopped his crying, and he began to babble. Kept talking about 'Bernice.' Naturally Slim and I perked up our ears."

"I gave Slim the high sign, and we began to propel our fine young lad over to my room. He'd begun to sober off a little by the time we reached there. Not much, but enough so he was half rational. Then he got a talking jag. Nothing would do but he must talk."

"And of all the people he picked to talk to," breathed Molly.

"Now, see here," protested Red. "That's no way to talk. We've been darn white to that kid, me and Slim. We've fed him black coffee

## Farm Women Have Part In Farmer's Week Plan

FAYETTEVILLE, July 20—Five Arkansas farm women will be honored at the 11th Annual Farmer's Week, which is to be held here by the University of Arkansas College of Agriculture, August 6-9, at a special general program ceremony the morning of August 8.

The five, who will be named at the ceremony, have been chosen as the state's outstanding rural community leaders and farm homemakers. Miss Jess M. Rowe, field editor of the Farmer's Wife, a national farm women's magazine published at St. Paul, Minn., will be in charge of the recognition ceremony. This is the second recognition to be held in Arkansas. Five farm women were named at last year's Farmers' Week. The Master Farm Homemaker movement in Arkansas is being carried on by the county home demonstration agents of the Agricultural Extension Service in cooperation with this farm women's journal.

Miss Rowe, who has had charge of the Master Farm Homemaker work of the Farmer's Wife and formerly state home demonstration agent in Montana, will also speak

at the home economics sectional program on the "Master Farm Homemaker Movement."

Peter Ramoski of Philadelphia saved \$80 by having two pairs of trousers when he was held up, as the bandit searched only the outside pair.

# Live Life To The Full

This is the most amazing century in the history of the world. Within the brief span of twenty-five years man has learned to fly, to talk across space, to see through living bodies. No one knows what miracles the next quarter of a century will produce.

But it is not these more spectacular inventions alone that human progress has leaped ahead.

Since the dawn of civilization women have aged faster than men. The deadly monotonous routine and drudgery of house-keeping has borne them down.

But modern science has taken away the chief causes of drudgery. Through advertising, women by the millions have found a way to have water, light, heat, cold . . . at the touch of a finger. No women of even the most modest means need to be a drudge today if she reads advertising.

It is advertising that has stimulated an overwhelming demand for these newer, better things of life. And this demand has made possible tremendous new industries furnishing well-paid work for millions of men. An endless circle that has made the average American family today the healthiest, happiest and most prosperous in all the world.

Read advertising. Don't miss the new things—live life to the full.
